

ETHAN NELSON

(770) 689-7042 | einelson8i@gmail.com | [linkedin.com/in/ethan-nelson/](https://www.linkedin.com/in/ethan-nelson/) | einelson.github.io

Education

Brigham Young University-Idaho

Apr 2021

BS. Science in Computer Science

Rexburg, ID

Advanced:

- Python/Machine Learning
- C++

Competent:

- Keras, TensorFlow, NumPy, Pandas
- KNN, Neural Networks, Clustering, Point Cloud
- Plotly, Dash

Topics studied:

- Machine learning and data mining
- Computer security
- Software engineering

Work Experience

Data Science Intern

Jan 2021-Present

Snow Data Science

Houston TX, Rexburg, ID

- Using data visualization to create results that are easily understandable
- Researching unsupervised machine learning algorithms pertaining to clustering and use of PCA
- Program will work with large systems to detect and pinpoint where faults are occurring

Data Reviewer, Annotator

Feb 2020-Jan 2021

Research & Business Development Center

Rexburg, ID

- Conduct research under a Machine Learning Engineer in order to increase working knowledge on machine learning algorithms specifically dealing with neural networks, semantic segmentation and point cloud classification.
- Build neural network with Point Net and TensorFlow to classify point cloud data to help achieve a fully automated warehouse.
- Correctly apply algorithms to classify point cloud data.
- Contributing to 80,000+ image data set to train machine learning algorithm in recognizing product details

Front-End Developer

Sep 2019- Feb 2020

House Cleaning Captains

Rexburg, ID

- Built website to increase public exposure of local startup and increased exposure through use of SEO.
- Maintained and updated website to help company maintain a professional appearance as well as allow workers to view/manage appointments.

Project Experience

Image Colorization

Nov 2019-Dec 2019

Student Project

Rexburg, ID

- Trained a machine learning algorithm using an 800+ image database.
- Deepened knowledge on Convolutional Neural Networks and image pre-processing by experimenting and researching relevant data.
- Collaborated with team to maximize efficiency in preparing training and modeling training data to speed up result time.

EEG Eye-State Data Research

Jan 2020-Feb 2020

Personal Project

Rexburg, ID

- Conducted and applied research in order to understand EEG data and how it works with machine learning.
- Built and trained a network that could classify eye state data with a 94.53% accuracy.

Other Relevant

Amateur Radio Operator (K7INE)

March 2020 – Present

- Participate in ERC communication channel (Emergency radio communication East Idaho).

Volunteer Representative | *The Church of Jesus Christ of Latter-day Saints* *London, England*

Feb 2016 – Feb 2018

- Helped others set and plan to meet goals.
- Lead 6 other volunteers- trainings, overseeing statistics, reported status metrics.

Won nation-wide youth competition | [instructables.com](https://www.instructables.com)

Sept 2013

- Used multiple technologies to create a creative home improvement project.
- Project included designing and building a system to toggle lights from bed.
- Use of 3-D printing, Raspberry Pi, Arduino, soldering, plexiglass.
